

M3 Industrial

High-power replaceable batteries (2*8000mAh Li ER18505) enable a long lifetime of up to 10 years. Highly durable product – waterproof, anti-collision, and operable in extreme temperatures.

With flexible installation options (sticker, screw, or cable tie), the M3 can be deployed across a wide range of environments (e.g., warehouses, factories, construction sites, hospitals). Can be used as a location tracking / motion sensor tag, as well as an anchor (i.e., data-transmitter node).

Device specifications:

Main Chip	Nordic nRF52832
Dimension	122.6mm x 72.9mm x 33.8mm
Installation	Sticker, Screw, Cable Tie
Material	ASA + PC
Waterproof	IP67
Color	Gray
LED	Yes

Motion Sensor	Yes
Switch	Magnetic
Operating Temperature	-20°C / +60°C
Humidity	0% ~ 95% (non-condensing)
Power Supply	Replaceable 2*AA ER18505, 8000mAh battery
