

## M2 Mini-Industrial

Wide range of deployment possibilities, driven by ruggedized design with IP67 waterproof and ability to withstand extreme temperatures. Replaceable battery lasts up to 2 years.

With flexible installation options (sticker, lanyard/hang, screws), the M2 can be deployed across a wide range of environments (e.g., warehouses, factories, construction sites, hospitals). Can be used as a location tracking / motion sensor tag, as well as an anchor (i.e., data-transmitter node).

### Device specifications:

Main Chip	Nordic nRF52832
Dimension	70mm x 46mm x 21mm
Weight	33.5g ( <i>with battery</i> )
Installation	Sticker, hang, screw
Material	ABC + PC
Waterproof	IP67
Color	Gray
LED	1 Red

Motion Sensor	Yes
Switch	Magnetic
Operating Temperature	-20°C / +60°C
Humidity tolerance	0% ~ 95% (non-condensing)
Power Supply	Replaceable 1000mAh lithium coin CR2477 battery
